### About

Vera Georgievova, PhDr.

My photo

I have graduated from Charles University in Prague. I teach Czech conversation and grammar lessons tailored to your needs. I teach individuals, beginners and advanced. Are you looking for a new hobby? How about learning Czech with me? Learning a language is an exciting experience. I believe that learning a language should be fun. You will be improving rapidly over a short period of time.

### Lessons

Photo of textbooks

**All my life I've worked with the Czech language, first as an editor for printed media, and later as a Czech teacher. Czech is, in my opinion, the richest language in the world, but also one of the most difficult. In order to master Czech, you need strong motivation and a lot of patience. The students that I teach has both, although for others it is also an interesting hobby. I use exclusively Czech to teach during my**

**lessons, using different ways of describing things, humour, gestures, photos and illustrations to help my students understand better. I only use English when I'm trying to explain Czech grammar.**

I respect my students' needs and I design the lessons to be the most effective and practical way to achieve their goals.

Location: Prague and surrounding areas (max. 30 km commute).

Our lessons can be held in your office, your home, over SKYPE or we can meet in a quiet café in the center of Prague.
